1. REPORTING ENTITY

Divergent Energy Services Corp. (the "Corporation"), is a Canadian Corporation with a registered office located at 600, 815 – 8 Avenue SW, Calgary, AB, T2P 3P2. The condensed consolidated interim financial statements of the Corporation as at and for the three month period ended March 31, 2018, comprise the Corporation and its wholly owned subsidiaries (referred to as the "Group"). These condensed consolidated interim financial statements include the accounts of the Corporation and its wholly-owned subsidiaries. The Group is in the business of providing artificial lift products and services to its clients in the oil and gas industry throughout North America.

2. RESTATEMENT OF FINANCIAL STATEMENTS

The Corporation is restating its consolidated statement of financial position as at March 31, 2018, December 31, 2017 and January 1, 2017 and its consolidated statement of net income (loss) and comprehensive income (loss), statement of equity and statement of cash flows for the three month periods ended March 31, 2018 and 2017.

In the course of preparing the Corporation's consolidated financial statements for the year ended December 31, 2018, errors were identified with respect to the foreign currency translation of certain balances and inter-company amounts associated with the Corporation's wholly owned foreign subsidiaries. The Corporation analyzed all prior periods commencing with the fiscal 2011 period. For periods prior to 2011, sufficient information was no longer available.

The following tables present the impact of the restatement adjustments on the Corporation's previously reported consolidated financial statements for the three month periods ended March 31, 2018 and 2017, as well as the impact of the consolidated statement of financial position as at January 1, 2017, December 31, 2017 and March 31, 2018.

The Corporation had conducted its operations in Mexico primarily through its wholly owned subsidiary, COTS Mexico. During the year ended December 31, 2016 the Corporation commenced winding down the operations of COTS Mexico and in fiscal 2017 a liquidator was engaged to commence the process of the liquidation of the entity. During the three months ended March 31, 2018 COTS Mexico was liquidated and it was determined that any liabilities associated with COTS Mexico, including income and withholding taxes owed, were eliminated upon liquidation.

During the first quarter of 2018, the Corporation recorded $1,494 in respect of an estimated withholding tax payable arising on the dissolution of COTS Mexico on February 1, 2018. It was subsequently determined that any tax liabilities of COTS Mexico were eliminated upon liquidation. Accordingly the Corporation reversed a tax provision of $315 and recorded an income tax recovery of $1,179 previously accrued as shown in the table below.

3. GOING CONCERN

These condensed consolidated interim financial statements have been prepared on a going concern basis. The going concern basis of presentation assumes that the Corporation will continue in operation for the foreseeable future and be able to realize its assets and discharge its liabilities and commitments in the normal course of business.

As these financial statements are being filed on December 20, 2019, they include additional information regarding the going concern. At March 31, 2018 the Corporation has a working capital deficiency of $550 and an accumulated deficit of $26,461. During the period ended March 31, 2018 the Corporation generated income from continuing operations of $648 and used cash in operations of $205. During Q1 2018 approximately 96% (Q1 2017 - 90%) of sales are attributable to one customer. Included in accounts payable and accrued liabilities are amounts due to related parties totaling CAD $120 which are due on December 31, 2019 (see Note 14). The Corporation does not have sufficient cash or other resources available to meet its obligations and commitments in a timely manner. On May 3, 2019, the Corporation announced that it was delayed in filing its annual financial statements for the year ended December 31, 2018, the related management's discussion and analysis (MD&A") and certificates of its chief executive officer and chief financial officer with the Alberta Securities Commission ("ASC") beyond the deadline of April 30, 2019. In connection with this delay, on May 6, 2019, the Corporation received from the ASC a cease trade order ("CTO") for the Corporation's failure to file the above noted materials prior to the filing deadline. Further, the Corporation has not filed its 2019 interim financial statements, MD&A and certifications on the required filing deadlines. The Corporation is unable to raise additional financing to fund operations while the CTO is in place.

The CTO has prevented the Corporation from issuing common shares to settle interest obligations on the debentures for the three month periods ended June 30, 2019 and September 30, 2019 which has resulted in the Corporation becoming non-compliant with provisions of the indenture agreements. Currently, the debenture holders have the right to demand immediate repayment of all outstanding amounts. There is no assurance that the Corporation will be able to meet its interest payment obligation under the debentures or obtain a sufficient number of waivers from the debenture holders relating to all unpaid interest. The Corporation is seeking waivers from its debenture holders covering all outstanding interest currently due and payable, plus interest which will become due and payable on December 31, 2019. If approved, the waiver would allow the Corporation to pay all outstanding interest owing to debenture holders by the issuance of shares on or before March 31, 2020.

As a result of the foregoing, there exist material uncertainties that cast significant doubt on the Corporation's ability to continue as a going concern.

Additional financing is required in order for the Corporation to meet its current obligations. The Corporation's management and Board of Directors continue to seek alternative debt and equity financings in order to fund additional projects and operations in North America and to provide for the repayment of the Corporation's obligations as they become due. There is no assurance the Corporation will be able to obtain adequate financing in the future or that such financing will be on terms acceptable to the Corporation.

The unaudited condensed consolidated interim financial statements do not reflect adjustments that would be necessary if the going concern assumption were not appropriate. If the going concern basis were not appropriate for these financial statements, then adjustments would be necessary to the classification and carrying amounts of the assets and liabilities and the reported revenues and expenses to reflect a liquidation basis of accounting.

4. BASIS OF PRESENTATION

A. Statement of Compliance

These condensed consolidated interim financial statements are prepared in accordance with IAS 34 – Interim Financial Reporting, as issued by the International Accounting Standards Board (“IASB”). Accordingly these condensed consolidated interim financial statements do not include all of the information and footnotes required by the International Financial Reporting Standards (“IFRS”) for complete financial statements and should be read in conjunction with the December 31, 2017 audited annual consolidated financial statements.

The condensed consolidated interim financial statements were authorized originally for issue by the Board on May 28, 2018, subsequently with the restatement of the Q1 2018 financial statements the Board authorized the restated financial statements for issue on December 20, 2019.

B. Presentation Currency

These unaudited condensed consolidated interim financial statements are presented in US dollars (“USD”).

C. Use of Estimates and Judgments

The preparation of the condensed consolidated interim financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

In preparing these condensed consolidated interim financial statements, the significant judgments made by management in applying the Group’s accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements for the year ended December 31, 2017.

Prior to liquidation of its Mexican subsidiary (See Note 15), the Corporation has taken certain tax positions in its Mexican tax filings using its best estimate based on a qualitative assessment of all relevant factors.

5. SIGNIFICANT ACCOUNTING POLICIES

The accounting policies and methods of determination of fair values were set out in Note 3 of the Corporation’s annual consolidated financial statements for the year ended December 31, 2017, and have been applied consistently to the periods presented in these interim condensed consolidated financial statements except as noted below.

Leases – to be adopted January 1, 2019
On January 13, 2016, the IASB issued IFRS 16, “*Leases*” (“IFRS 16”), which requires entities to recognize lease assets and lease obligations on the balance sheet. For lessees, IFRS 16 removes the classification of leases as either operating leases or finance leases, effectively treating all leases as finance leases. Certain short-term leases (less than 12 months) and leases of low-value assets are exempt from the requirements, and may continue to be treated as operating leases. IFRS 16 is effective for years beginning on or after January 1, 2019, with early adoption permitted. The Corporation is currently evaluating the impact of adopting IFRS 16 on the Consolidated Financial Statements.

Revenue from Contracts with Customers (IFRS 15) – Adopted January 1, 2018
In May 2014, the IASB issued IFRS 15, “*Revenue From Contracts With Customers”* (“IFRS 15”) replacing IAS 11, “*Construction Contracts*”, IAS 18, “*Revenue*” and several revenue-related interpretations. IFRS 15 establishes a single revenue recognition framework that applies to contracts with customers and is effective for annual periods beginning on or after January 1, 2018. The Corporation recognizes revenue when it transfers control of the product or services to a customer which is on delivery and installation of the product at the customer site. Pricing is based on agreed contracted rates, and collectability is reasonably assured. The Corporation’s revenue transactions do not contain financing components and payments are typically due within 30 days of revenue recognition. The Corporation has assessed the impact of adopting IFRS 15 on the Consolidated Financial Statements and there have been no material differences identified as part of the Corporation’s assessments.

Financial Instruments (IFRS 9) – Adopted January 1, 2018
The Corporation adopted IFRS 9, which replaced IAS 39 – Financial Instruments: Recognition and Measurement, in its financial statements beginning January 1, 2018. IFRS 9 largely retains the existing requirements in IAS 39 for the classification and measurement of financial liabilities, however it eliminates the previous IAS 39 categories for financial assets held to maturity, loans and receivables and assets available for sale. Under IFRS 9 there are three principle classification categories for financial assets: measured at amortized cost, fair value through other comprehensive income (“FVOCI”) and fair value through profit and loss (“FVRPL”). The classification of financial assets under IFRS 9 is based on the business model in which a financial asset is managed and its contractual cash flow characteristics. Derivatives embedded in contracts where the host is a financial asset in the scope of the standard are never separated. Instead, the hybrid financial instrument as a whole is assessed for classification. IFRS replaces the ‘incurred loss’ model in IAS 39 with an ‘expected credit loss’ model. The new impairment model applies to financial assets measured at amortized cost, contract assets and debt investments at FVOCI, but not to investments in equity instruments. Under IFRS 9, credit losses are recognized earlier than under IAS 39. The adoption of IFRS 9 did not have a material impact on the Corporation’s financial statements.

10% debentures payable at March 31, 2018	$5,234	$4,280	$194	$21

On November 1, 2017, the Corporation requested and was granted an extension of the maturity date for the outstanding debentures by the registered holders and the maturity dates of the debentures were extended by four years to December 31, 2021. The terms of the extension agreement included the issue on January 1, 2018 of 5,750,000 warrants, exercisable at CAD $0.13 and expiring December 31, 2021.

As detailed in Note 3, the Company is currently not in compliance with respect to the debentures' indenture agreements. As a result, the debenture holders have the right to demand immediate payment of all amounts owning.

7. SHARE CAPITAL

9. STOCK BASED COMPENSATION

The Corporation has established a stock option plan to allow certain officers, directors, employees and consultants to acquire common shares of the Corporation. A total of 10% of the Corporation's shares outstanding are reserved for the issue of stock options pursuant to the stock option plan. For the period ending March 31, 2018, $29 (Q1 2017 -$46) of stock based compensation was recognized in the statement of net income (loss) and comprehensive income (loss) with a corresponding amount in contributed surplus.
