

## PRESS RELEASE

### **DIVERGENT Energy Services Announces the Release of 2023 Second Quarter Results**

#### **Symbol (DVG: TSX-V)**

CALGARY, ALBERTA – August 29, 2023. **DIVERGENT Energy Services Corp.** (“Divergent”, the “Company”, or “DVG”) announces the release of its financial results for the three and six months ended June 30, 2023. All amounts are in thousands (000’s) of United States Dollars, unless otherwise noted.

#### **HIGHLIGHTS FOR THE QUARTER**

- The Company posted its highest ever quarterly revenue from oil-related product sales and service.
- Adjusted EBTIDA of \$67 thousand in the second quarter of 2023 represents the eleventh consecutive quarter of positive adjusted EBITDA.
- Despite slowdowns in customer activity, the Company continues to maintain a strong balance sheet.

#### **INDUSTRY OUTLOOK**

Global demand for oil remains strong as the world's major economies continue to rely on petroleum products in everyday life. Macroeconomic factors including continued inflationary pressures, extended voluntary production cuts by Saudi Arabia, ongoing geopolitical tensions creating concerns for security of supply, and record low North American oil inventory storage levels all point to continued strong oil pricing well into 2024. At these price levels the Company anticipates generally robust oilfield service activity levels as customers remain very positive on their current spending plans for 2023. The Company continues to add new customers and as such, a capital investment in oilfield equipment was made in the third quarter of 2023 to increase the Company’s capacity to support a growing customer base.

While natural gas prices trended down and flattened out through the first quarter of 2023, the Company’s primary customer remained busy through the first quarter of 2023. However, during the second quarter of 2023, this same customer significantly reduced their activity levels, in part due to lower gas prices, but primarily due to two of their primary offtake pipelines being taken offline for repairs and recertification, which resulted in reduced revenue for the quarter. The repairs and recertification were completed mid-way through the third quarter of 2023. The Company anticipates continued base level activity throughout the third quarter of 2023 while the customer prepares to ramp back up their activity levels, as the CBM reservoir requires constant de-watering to maintain the integrity and value of the field. Market analysts are reporting that gas prices should improve in the second half of 2023 due to reduced gas-targeted drilling over the past year. As such, the Company expects to see increased activity levels starting in the fourth quarter of 2023.

Overall, the demand for energy services and the ability for the sector to improve over the next few years is seen as highly likely. The structural shortfall in global energy supply will be difficult for the industry to overcome for some time. The Company remains confident in the long-term viability of the oil and gas basins within its service region. These basins have significant future development opportunities that the Company is well positioned to address. In

this environment the Company intends to seek and evaluate strategic growth opportunities to both diversify its product offerings and drive continuous margin improvements.

**FORWARD LOOKING STATEMENTS**

*This press release contains forward-looking statements, including, without limitation, statements pertaining to anticipated future operational activity levels of Divergent and of a majority of its customers, and statements pertaining to interest payments on the Company's debentures. All statements included herein, other than statements of historical fact, are forward-looking information and such information involves various risks and uncertainties, including: the risk that the anticipated slowdown in sales and service of submersible pumps by Divergent's customers lasts longer than expected or impacts Divergent's revenues more severely than expected, the risk that the COVID-19 pandemic and the low oil and gas price environment cause additional negative effects on Divergent's business, the risk that the suspension of trading of the Company's common shares by the TSXV cannot be lifted in a timely manner or at all, and the risk that the Company cannot remedy the outstanding interest payments under the terms of its debenture indenture in a timely manner or at all. There can be no assurance that such information will prove to be accurate, and actual results and future events could differ materially from those anticipated in such information. A description of assumptions used to develop such forward-looking information and a description of risk factors that may cause actual results to differ materially from forward-looking information can be found in the Company's disclosure documents on the SEDAR website at [www.sedar.com](http://www.sedar.com). Forward-looking statements are based on estimates and opinions of management of the Company at the time the information is presented, including expectations provided to Divergent by its customers. The Company may, as considered necessary in the circumstances, update or revise such forward-looking statements, whether as a result of new information, future events or otherwise, but the Company undertakes no obligation to update or revise any forward-looking statements, except as required by applicable securities laws.*

*This press release contains financial outlook information ("FOFI") about prospective revenue reductions, which are subject to the same assumptions, risk factors, limitations, and qualifications as set forth in the above paragraphs. FOFI contained in this press release was made as of the date hereof and was provided for the purpose of providing an update regarding an anticipated material reduction in near-term revenue. Divergent disclaims any intention or obligation to update or revise any FOFI contained in this press release, whether as a result of new information, future events or otherwise, unless required pursuant to applicable law. Readers are cautioned that the FOFI contained in this press release should not be used for purposes other than for which it is disclosed herein.*
